

Date _____

Brand, model _____

Seller _____

Before

- ☐ Filled, switched on, heating for 1-2 days
- ☐ Water not freshly changed, jets not run beforehand
- ☐ Service panel accessible, paperwork ready
- ☐ With me: torch, test strips, thermometer, phone, paper towels, tape measure

Outside and underneath

- ☐ Cabinet intact, no rot, no warping
- ☐ No damp patches, puddles or limescale under the hot tub
- ☐ The hot tub is level
- ☐ No signs of pests

Shell

- ☐ No cracks, blisters or hairline cracks
- ☐ Seats, step and footwell do not flex
- ☐ Headrests intact

Behind the service panel (with pumps running)

- ☐ Dry insulation, no drips
- ☐ No limescale crust on the connections
- ☐ No frost damage (heater, filter housing, pump housing)
- ☐ No rust, corrosion or makeshift repairs
- ☐ No chewed cables, nests or burning smell

Operation

- ☐ Every pump, every speed: steady sound
- ☐ No flakes from the jets at start-up
- ☐ Every jet strong, rotating jets turn
- ☐ Valves, air controls and air blower work
- ☐ Reaches set temperature, my own thermometer agrees
- ☐ Heater starts when the setting is raised by one degree
- ☐ No error code, every button works
- ☐ RCD TEST: trips, restarts after RESET
- ☐ Ozone / UV-C works, date of last replacement
- ☐ Lighting and extras work

Cover and water

- ☐ Cover not heavy, not wet, not torn
- ☐ Closes well, straps present
- ☐ Cover lifter works smoothly
- ☐ Water clear, no foam, no strong smell
- ☐ pH and sanitiser tested with a strip
- ☐ Filter cartridge intact, not slimy

Paperwork and records

- ☐ Rating plate photographed, serial number matches paperwork
- ☐ Invoice, manual and service records present
- ☐ Warranty transferability clarified
- ☐ Photos and videos taken
- ☐ List of known faults for the contract
